IMI Global Selected by Ranchers Renaissance to Provide Source and Age Verification Services

CASTLE ROCK, Colo. – Integrated Management Information, Inc. (IMI Global) (OTCBB: INMG), a leading provider of verification and Internet solutions for the agricultural/livestock industry, today announced it has been selected by Ranchers Renaissance (RR) to provide age and source verification services.

Ranchers Renaissance has continuously led efforts in the beef industry to move toward a value-based marketing system where producers, along with others in the beef value chain, are paid for a quality product. To that end they are a select supplier to Safeway's Rancher's Reserve™ branded beef product.

“Our decision to select IMI Global for age and source verification services was based on the compatibility of their verification process with our individual animal database needs as well as their professionalism and reputation within the industry,” said Rose Hickert, executive director of Ranchers Renaissance.

“We are pleased to have been selected by Ranchers Renaissance, one of America's leading branded beef programs, to help provide this valuable service to their suppliers,” said Leann Saunders, VP of IMI Global. “Ranchers Renaissance represents the ideal partner for IMI Global. With a continuous focus on quality, we feel fortunate to have such a quality brand working with our system.”

About IMI Global

Founded in 1995, IMI Global is a leading provider of verification and Internet solutions for the agricultural/livestock industry. Go to www.IMIGlobal.com for additional information. IMI has worked with some of the largest agricultural organizations in the United States, providing web-based applications for verification and identification as well as a range of consulting services tailored to meet each customer's needs. IMI operations include CattleNetwork.com, an online service offering market information and industry news to the cattle industry, and CattleStore.com, an online source for livestock supplies, such as animal identification, medical equipment and veterinarian supplies. Additional IMI web sites include USVerified.com, AgNetwork.com, and PetSupplyVerified.com.

About Ranchers Renaissance

Ranchers Renaissance was the idea of innovative and forward-thinking ranchers who envisioned a value-based marketing system where producers are paid, along with others in the beef value chain, for a quality product. The idea evolved and in August 1997 when Ranchers Renaissance was incorporated as a closed cooperative. The goal up and down the Ranchers Renaissance beef

value chain is to produce consistently tender beef products for the consumer. By its very mission, Ranchers Renaissance is a customer-focused, integrated, beef-production system with profits derived from increased efficiency and consistent high-quality finished products. Go to www.ranchersrenaissance.com for additional information.
