Check all programs that apply and answer questions that apply:

Source and Age (Note: China EV requires EIDs and tag allocation to IMI/Sterling Tag Lookup System **Note:** Must report all shipments to IMI/Sterling for approval.

Note: Contact Susan Morse for login/password to IMI/Sterling SV2 Agent System to upload and create your own shipping certificates.)

Source/Age (and China EV – if EID tagged) program requirements. If no changes to procedures since the last audit, please indicate so below and continue to the next section.

7. Describe procedure for daily pick-up, receiving, identification, tagging, sorting, grouping, shipping as well as documentation that identifies and traces animals at each stage:

i. Any major changes since last audit:

ii. Age and Identification (how is age determined (actual birthdate, date goes back 3 days, etc.), and how are calves identified, daily pick-up procedures)

Saudi Arabia EV (Feed Review to verify no equine or porcine derived animal by-products fed to animals after they have been weaned out of the hutch)

8. Which fed products do you feed at the dairy farm/calf ranch location (Check all that apply and submit a copy of starter/grower ration ingredients recipe and the labels with this renewal document **Note:** NHTC requires a Letter of Guarantee – submit this as well)

Milk Replacer

Colostrum Supplement

Mineral/Calf Pellet

Probiotic

Whey Powder

Bovamine Dairy

Salt Block

Other _____

Page 3 of 3

No Animal By-Products (To verify no animal by-products fed from birth forward)

9. If you selected any of the above items, can you verify that none of these contain an animal by-product? (For example, does the milk replacer contain animal fat or red blood plasma.)

NHTC (To verify no growth hormones, including natural hormones, synthetic hormones, estrus suppressants, beta agonists, or other synthetic growth promotants given from birth forward) **Note:** This is for EU bound cattle and is also recommended for China EV program. If you do not wish to enroll in this program, continue to the next section. **Note:** Please send in labels and rations for all fed products and any NHTC letters on file.

10. Do you have implants on site (If yes, indicate what products you have on site, where they are stored, who has access and how you manage inventory)?

11. Do you use an estrus suppressant to synchronize females (lutalyse, factrel, MGA, etc.) or do you have oxytocin on site? (If yes, indicate what products you have on-site, where they are stored, who has access and how you manage inventory)

12. Do you have other hormones or growth promotants on-site? (If yes, indicate what products you have on-site, where they are stored, who has access and how you manage inventory)

No Antibiotics Used (To verify no antibiotics, sulfonamides, or ionophores are used from birth forward) If you do not wish to enroll in this program, continue to the next section.

13. Do you have a system in place that will allow you to identify and track treated calves (as non-conforming calves sold out of the No Antibiotics Used program?). Explain.

Verified Natural Beef: Check this box if this operation qualifies for the No Growth Promotants, No Antibiotics Used AND No Animal By-Products sections.
